## Press Release

### MecSoft announces Strong Sales Growth for 2012

**Irvine, CA, Feb 7, 2013:** [MecSoft Corporation](#), the developer of VisualMILL, RhinoCAM, VisualMILL for SolidWorks, Alibre CAM and other [CAM software](#) solutions, announced today double-digit sales growth for the 2012 calendar year.

"We are very pleased to announce that we've achieved double-digit sales growth for the third consecutive year running" stated Joe Anand, President and CEO of MecSoft. "This growth is largely fueled by a strong acceptance of our 2012 CAM product releases. We are looking forward to continuing this momentum into 2013 as well and are excited for what the year will bring."

Some of the highlights for 2012 include:

- Released major version upgrades to all CAM products
- Released a 5 Axis simultaneous machining module
- Established strategic partnerships with new machine tool vendors
- Continued to expand global reseller channel
- Transitioned support of Alibre CAM from 3D Systems to MecSoft

MecSoft continues with their commitment to improve their products by making them more powerful and easier to use. With many new developments on the horizon, MecSoft looks forward to a strong 2013.
